## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-24 and 29-37, drawn to a fuel reforming apparatus to produce hydrogen for a fuel cell, classified in class 429, subclass 17.
  - II. Claims 25-28, drawn to hybrid vehicle having a fuel cell, classified in class 180, subclass 65.3.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as providing a hydrogen gas by reformulating a hydrocarbon fuel, to be used by a fuel cell that is not used in a hybrid electric vehicle. See MPEP § 806.05(d). Invention I specifically provides an apparatus for reformulating a hydrocarbon fuel into a hydrogen gas, which could be used in numerous chemical processes. Invention II specifically requires a hybrid electric vehicle having a fuel cell that on a hydrogen fuel gas.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3618

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. A telephone call was made to the Applicant's Representative's Firm, Oliff & Berridge, on February 5, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Allen Shriver whose telephone number is (703) 308-1224. The examiner can normally be reached on M-Th (7:30-6:00).
